

A **guide** symbolizes one of your guardian angels. They are often silent in dreams and indicate their message by what they are doing, wearing, or have with them. For example, if he or she is ignoring you it means you are ignoring your guide in reality. When a guide speaks in a dream they are infallible. Always take their message as it is.

To **help others** in a dream is indicative that you are a spiritual teacher / leader. Spiritual leaders empower others to be able deal with their challenges themselves.

Being **late** in a dream is a reminder that you are on the karmic path and have not developed yourself to the degree you agreed and had planned before being born.

A **radio** indicates that you are a clairaudient channel. Clairaudience is a gift where you literally hear messages from the spirit world. Mostly the messages are heard as lines from songs popping into your head. The segment of the song will repeat over and over making you wonder why you can't get it out of your head. Once you accept it is a message it immediately changes to a line from another song or stops if it is the end of the message. It can also work through hearing lines from movies.

Dream: The Radio

My dream features a radio, with no details about it. Then our guide told us that we should get up early in the morning in order to help people. He woke us up at 5 AM, even though we went to sleep very late.

The number **five** indicates the karmic path in dreams. Literally you are experiencing your world through the five physical senses alone. Dreams with the number 5 quite often show what you are obliged to develop on this path so look for other symbols to indicate this in the dream.

The Radio – The Analysis

This dreamer is a clairaudient channel (he hears messages). The guide in the dream is one of his guides in reality. As a guide what he says is infallible. Telling the dreamer to awaken early is asking him to get in touch with the spiritual purpose of his life. He specifically tells him he is to help others so he is to use his clairaudient ability to do this. Five is a reminder to the dreamer of his karmic obligation to help others. This is in his best interest. References to being late or time in dreams are also about being on the karmic path. On this path various milestones have to be achieved. When we fall behind on these we can dream about being late and that is why it shows up in this dream. The reference to having no detail on the radio tells the dreamer that he does not need to know how this channeling works. Simply use it as you would a radio – you do not need to know how it works to tune in and listen to it.

In reality the dreamer was unaware that he was a channel but in his own words says, "For many years I noticed that songs are popping into my head with their meaning reflecting a state of mind or an insight on a particular situation." This agrees with the dream saying he does not need to know the details of how clairaudience works.
